

## Buy American Act

The Buy American Act restricts the purchase of supplies that are not domestic end products.

The Buy American Act consists of the following two-part test, used to define a domestic end-product or component.

1. The product or component must be manufactured in the United States
2. The cost of domestic components must exceed 50 percent of the cost of all components

Maxitrol Company certifies that its products are domestically produced and considers components of unknown origin to have been mined, produced, or manufactured outside the United States of America.

Maxitrol has listed all foreign originated products produced and manufactured in the United States of America that do not qualify as domestic end products.
